

## Vibration and Overpressure InstanTEL

### Description

**NOTE: This is a legacy and discontinued product not available for order.**

Since 1982, InstanTEL® vibration monitors have earned their position as the world's most trusted monitors for regulated vibration control. As part of InstanTEL's independent dealer network, and official representative for Western Canada, RST Instruments Ltd. provides equipment sales and rentals, as well as technical support and monitoring services for any project.

Visit [InstanTEL.com](http://InstanTEL.com) for more information.

To view the Vibration and Overpressure InstanTEL specifications, visit the [Micromate product page](#) on the InstanTEL website.
